	HANGING INSTRUCTIONS This design is made up of four 300cm high drops of wallpaper, supplied and printed as one continuous roll measuring 68.5cm in width. The individual drops are indicated by a cut line for ease of hanging. This wallcovering is printed digitally onto a non-woven base, which is strong and flexible, allowing the wall to be pasted rather than the substrate itself. The wallcovering can be tailored to room height by removing any excess from the top and/or bottom of each length. To achieve the best result we recommend the use of a professional decorator experienced in hanging wide width papers.							

English

Please note: slight colour variances may occur between batches. All measurements stated are approximate:

Non-Woven:

- Easier to hang and strip than conventional wallpaper.
- This is a 'paste the wall' product, the paste should be applied directly to the wall and not to the back of the wallcovering. Please see hanging instructions.
- This is non-vinyl product, which allows the wallpaper to 'breathe' thereby helping to prevent mould or moisture.
- There will be no bubbling or curling of edges when wet.
- Strong when wet to easier and more precise to cut than 'soaked' paper.
- Superior light resistance.
- Clean to work with and easy to correct.
- Meets the BS476 British Class 0 fire standards. European Product Standard EN 15102 for Wallcoverings B, s-1-d0.

Instructions:

Pasting: We recommend that a premium quality tub adhesive, or an equivalent good quality, solvent free, fungicide protected, light grade adhesive should be used. DO NOT use self-mix adhesives.

Please check all wallcovering orders when received for quality, colour, design and any imperfections prior to cutting. Claims against wallcoverings will not be accepted after cutting and hanging the wallcovering. If co-ordinate fabric is ordered, please check the goods for colour match prior to hanging the wallcovering. Clarke & Clarke will replace any defective merchandise but will not be responsible for labour costs in the installation of incorrect or imperfect material. Any colour changes or discolouration due to non-neutralised plaster or improper wall preparation is not covered by this.

Deutsch

Bitte beachten: Geringfügige Farbtoleranzen von Farbpartie zu Farbpartie sind möglich. Bei den angegebenen Maßen handelt es sich um Richtwerte:

Vlies:

- Einfacher anzubringen und zu entfernen als herkömmliche Tapete.
- Bei diesem Produkt wird der Kleister direkt auf die Wand aufgetragen (und nicht auf die Tapetenrückseite). Bitte beachten Sie die Tapezieranleitung.
- Dieses Produkt ist vinylfrei. Dadurch kann die Tapete besser „atmen“ und Schimmel- und Feuchtigkeitsbildung wird vorgebeugt.
- Im feuchten Zustand bilden sich keine Luftblasen bzw. kräuseln sich die Ränder nicht.
- Stabil auch im feuchten Zustand, dazu leichter und präziser zuschneidbar als „eingeweichte“ Papiertapete.
- Besonders hohe Lichtbeständigkeit.
- Gewährleistet sauberes Arbeiten und einfaches Korrigieren.
- Erfüllt die britischen Brandschutznormen BS476, Klasse 0. Erfüllt die europäische Produktnorm für Dekorative Wandbekleidungen nach DIN EN 15102, Brandverhalten B-s1, d0.

Anleitung:

Kleister: Wir empfehlen die Verwendung eines hochwertigen Flüssigkleisters oder ähnlichen Qualitätsprodukts, das lösungsmittelfrei, lichtbeständig und mit Anti-Schimmel-Zusatz versehen ist. VERWENDEN SIE KEINEN selbst anrührbaren Kleister.

Überprüfen Sie alle Tapetenbestellungen nach Erhalt und vor dem Zuschnitt auf Qualität, Farbe, Motiv und Fehler. Reklamationen nach Zuschnitt und Anbringung der Tapete werden nicht akzeptiert. Wurde ein farblich passender Stoff dazubestellt, überprüfen Sie die Artikel bitte vor Anbringung der Tapete auf farbliche Übereinstimmung. Clarke & Clarke ersetzt fehlerhafte Ware, haftet aber nicht für Arbeitskosten, die durch Anbringung falscher oder schadhafter Materialien entstehen. Farbliche Veränderungen oder Verfärbungen aufgrund der Verwendung von nicht pH-neutralen Kleister oder einer ungeeigneten Vorbehandlung der Wandflächen sind von der Gewährleistung ausgeschlossen.

Espanol

Tenga en cuenta que puede haber ligeras variaciones de colores entre lotes. Todas las medidas indicadas son aproximadas:

No tejido:

- Más fácil de colgar y quitar que el papel de pared convencional.
- Es un producto de «pared adhesiva», el adhesivo debe aplicarse directamente sobre la pared, y no sobre la parte posterior del revestimiento. Por favor, consulte las instrucciones para colgar.
- Este es un producto no vinílico que permite que el papel de pared «respire» y, de ese modo, ayuda a evitar el moho o la humedad.
- No aparecerán burbujas ni ondulaciones de los bordes cuando esté mojado.
- Resistente cuando está mojado para poder cortarse con más facilidad y precisión que el papel «mojado».
- Resistencia a la luz superior.
- Se manipula de forma limpia y se corrige fácilmente.
- Cumple las normas británicas relativas a incendios de la clase 0 BS476.
- Norma europea de productos EN 15102 para revestimientos de pared B, s-1-d0.

Instrucciones:

Pegado: Recomendamos utilizar un tubo de adhesivo de calidad superior o bien un adhesivo de calidad equivalente, sin disolventes, protegido con fungicida y de grado ligero. NO utilice sus propias mezclas de adhesivos.

Por favor, compruebe los pedidos cuando los reciba para detectar defectos de calidad, color, diseño o cualquier otro antes del proceder al corte. No se aceptarán reclamaciones de los revestimientos de pared después de cortarlos y colgarlos. Si se pide un tejido combinado, por favor, compruebe que el color de los artículos combinen antes de colgar el revestimiento de pared. Clarke & Clarke cambiará cualquier mercancía defectuosa, pero no será responsable de los costes laborales en caso de instalación de material incorrecto o imperfecto. Cualquier cambio de color o decoloración debido a una masilla no neutralizada o a una preparación inadecuada del papel no está cubierto por esta garantía.

Français

Remarque: de légères variations de couleur peuvent exister entre les différents lots. Toutes les dimensions indiquées sont approximatives:

Intissé:

- Plus facile à poser et à enlever que le papier peint traditionnel
- Ce produit est un papier peint à encollage mural, la colle doit être directement appliquée sur le mur et non au dos du revêtement mural. Veuillez consulter les instructions pour la pose du papier peint.
- Ce produit est un papier peint sans vinyle, ce qui lui permet de « respirer » et ainsi d'empêcher la formation de moisissures ou d'humidité.
- Si le papier peint est mouillé, aucunes bulles ne se formeront et les bords ne se replieront pas sur eux-mêmes.
- Il reste rigide lorsqu'il est mouillé pour une découpe plus facile et plus précise qu'avec du papier peint « détrempe ».
- Meilleure résistance à la lumière.
- Pose propre et facile à retoucher.
- Conforme aux normes incendie britanniques BS476 Classe 0. Norme produit européenne EN 15102 pour les revêtements muraux B, s-1-d0.

Instructions:

Encollage: Nous vous recommandons d'utiliser un adhésif en tube de très bonne qualité ou un équivalent de bonne qualité, sans solvants, léger et contenant un fongicide. NE PAS utiliser d'adhésifs préparés vous-même.

Veuillez vérifier la qualité, la couleur, le motif et les imperfections de tous les revêtements muraux reçus avant de les découper. Les réclamations relatives aux revêtements muraux ne seront pas acceptées si ceux-ci ont déjà été découpés ou posés. Si vous avez commandé des tissus assortis, veuillez vérifier que les couleurs des produits sont bien assorties avant de poser le revêtement mural. Clarke & Clarke remplacera tous les produits défectueux mais ne pourra pas être tenu responsable des frais de main d'œuvre engendrés lors de l'installation d'un mauvais produit ou d'un produit défectueux. Les changements de couleur ou les décolorations dus à une surface en plâtre non neutralisée ou à un mur mal préparé ne sont pas couverts par cette garantie.

Italiano

Please note: slight colour variances may occur between batches. All measurements stated are approximate:

Non-intrecciato:

- Più facile da appendere e stendere rispetto alla normale carta da parati.
- Si tratta di un prodotto ad incollaggio su parete, la colla deve quindi essere applicata direttamente sulla parete e non sul retro del rivestimento murale. Si vedano le istruzioni per l'installazione.
- Non è un prodotto vinilico, il che permette alla carta da parati di "respirare" aiutando a prevenire l'insorgenza di muffa e umidità.
- Non si formeranno bolle e le estremità non si curveranno in caso di umidità.
- Più forte in caso di umidità, permette un taglio di maggiore precisione rispetto alla carta soggetta all'umidità.
- Resistenza superiore alla luce.
- Permette una lavorazione pulita e una facile correzione.
- Conforme agli standard BS476 British Class 0 fire. European Product Standard EN 15102 per carta da parati B, s-1-d0.

Istruzioni:

Incollaggio: Si raccomanda di impiegare un prodotto adesivo per ambiente sanitario di qualità superiore oppure un prodotto adesivo di buona qualità, senza solventi, fungicida, di tipo leggero. NON impiegare prodotti adesivi miscelati autonomamente.

Vi invitiamo a controllare tutti gli ordini di carta da parati al momento della ricezione per verificarne la qualità, il colore, il design e l'eventuale presenza di imperfezioni prima di procedere al taglio. Non saranno accettati reclami a taglio e installazione della carta da parati avvenuti. Nel caso in cui sia stato ordinato un tessuto abbinato, vi invitiamo a controllare i prodotti per assicurare l'esatta tonalità del colore prima di procedere all'installazione. Clarke & Clarke sostituirà ogni prodotto difettoso, ma non sarà responsabile per i costi di lavorazione relativi all'installazione di materiale non corretto o soggetto a imperfezioni. Qualsiasi alterazione del colore o scoloritura dovuta a un intonaco non-neutralizzato o a una preparazione impropria della parete non sarà coperta da garanzia.

Technical Information

English

Colour: Slight colour variances may occur between batches. All widths and pattern repeats stated are approximate.

Cleaning: For velvet designs: Wash at 30°C. Do not bleach. Do not tumble dry. Do not iron. Dry cleanable. All other designs: Wash at 30° on a delicate spin cycle. Do not bleach. Do not tumble dry. Iron on a high temperature. Dry clean on a delicate cycle. Please make allowances for any shrinkage which may occur during this cleaning process.

Usage: For velvet designs: Suitable for curtains for domestic end use and cushions and upholstery for domestic and contract end use. All other designs: Suitable for curtains, roman blinds, cushions and upholstery in domestic end use. The fabric must be treated to the relevant FR standard.

*FR finishes available by request on the below product - please specify at point of order which FR standard is required. A good quality lining is recommended for drapery use.

All designs in this collection, with the exception of velvets, are available as oilcloth (PVC) on request.

Deutsch

Farbe: Geringfügige Farbtoleranzen von Farbpartie zu Farbpartie sind möglich. Alle Breiten und Musterrapports sind ungefähre Angaben.

Reinigung: Für Designs auf Samtstoff: Bei 30°C waschen. Nicht bleichen. Nicht trocknergeeignet. Nicht bügeln. Chemische Reinigung möglich. Alle weiteren Designs: Bei 30°C im Feinwaschgang waschen. Nicht bleichen. Nicht trocknergeeignet. Auf hoher Temperatur bügeln. Chemisch im Feinwaschgang reinigen. Berücksichtigen Sie bitte, dass Stoffe während des Reinigungsvorgangs einlaufen können.

Anwendung: Für Designs auf Samtstoff: Geeignet für Vorhänge - für den Hausgebrauch; geeignet für Kissen und Polstermöbel - für den Hausgebrauch und in gewerblichen Endnutzeranwendungen. Alle weiteren Designs: Geeignet für Vorhänge, Raffrollos, Kissen und Polstermöbel für den Hausgebrauch sowie in gewerblichen Endnutzeranwendungen. Der Stoff muss entsprechend der relevanten Brandschutznorm behandelt werden.

*Die nachstehenden Produkte sind auf Anfrage auch in schwer entflammbarer Qualität erhältlich. Bitte bei Bestellung angeben, welche Brandschutznorm benötigt wird. Für Vorhänge empfehlen wir ein hochwertiges Futter.

Alle Designs dieser Kollektion, mit Ausnahme von Samtstoff, sind auf Anfrage als Wachstuch (PVC) erhältlich.

Espanol

Color: puede haber ligeras variaciones de colores entre lotes. Todos los anchos y las repeticiones de patrón indicados son aproximados.

Limpieza: Para diseños de terciopelo: lavar a 30°C. No usar lejía. No secar en secadora. No planchar. Se puede limpiar en seco. Todos los demás diseños: lavar a 30°C con un programa de centrifugado delicado. No usar lejía. No secar en secadora. Planchar a temperatura alta. Limpiar en seco con un programa para prendas delicadas. Tenga en cuenta que la pieza puede encoger durante este proceso.

Uso: Para diseños de terciopelo: adecuado para cortinas para uso final domésticos y cojines y tapicería para uso final doméstico y público. Todos los demás diseños: adecuado para cortinas, estores plegables, cojines y tapicería, tanto para uso final doméstico. El tejido debe tratarse según el estándar ignífugo correspondiente

*Los acabados ignífugos están disponibles al pedir los productos expuestos a continuación. Indique el estándar ignífugo requerido al realizar el pedido. Se recomienda emplear un forro de buena calidad para el uso de cortinas.

Todos los diseños de esta colección, con la excepción de terciopelo, están disponibles como hule (PVC) a pedido.

Français

Couleur: De légères variations de couleur peuvent exister entre les différents lots. Toutes les largeurs et répétitions de motifs indiquées sont approximatives.

“Orla is made from recycled materials.”

For every 1 metre of fabric, we have prevented 13 bottles from going into the ocean or landfill. We recycle and reuse plastic bottles to help save the planet.
